San Francisco, CA 94104

Dear Clifford:

I want to personally thank you for the tremendously valuable time and insight you have provided to United Stationers regarding "green marketing." You are clearly a "green pioneer" in our industry, and a very worthy model for this important product and lifestyle shift on behalf of independent dealers. It seems likely that the green movement will continue to gain momentum everywhere as we recognize its importance both in terms of the way we use and market green products, and also the way we all live and work.

At United, we continue to count on the input of dealers like you as we develop new programs to advance the channel. Thank you again for your assistance – and thank you for your business.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Hampton", written over a large, stylized "X" or similar graphic.

Mark Hampton
